

WINDOWS 10

Taskbar Shortcuts

Highlight the first app on the taskbar. From there, use the **arrow keys** to scroll through the apps and hit **Enter** to open an app.

Highlight the first item in the Notification Area. Use the **arrow keys** to scroll through the items and hit **Enter** to open an item. Tap **Shift + F10** to open a menu for the item.

Open an application on the taskbar that corresponds with the number on the taskbar lineup

Open the application again, when it is still running. You can use this trick to open more than one browser window.

Open the application that most recently used that number open

Open the application's menu or "jumplist"
