A step-by-step guide for removing nail polish from clothing

**What you’ll need**
- Cotton swab or spoon
- Dry cleaning solvent
- Laundry detergent

**What to do**

1. Remove excess nail polish with a cotton swab or spoon.

2. Add dry cleaning solvent to a cloth. Blot the stain in a circular motion from the outside in.

3. Repeat, as necessary.

4. For dried stains, presoak the garment in water and 1 tablespoon detergent for 20 minutes.

6. Repeat steps 2–5 if the stain remains, then dry as usual.
